Hi Laura, thanks for reminding me, I completely forgot to look for that work version of the latest tox review.

Also, that is a good idea separating the major comments from the minor ones.

Hi Kathleen –
Just wanted to give you a quick status update on BaP...

Ex. 5 Deliberative Process (DP)

Overall the changes seem fairly straightforward and I still hope to be able to wrap everything up by the end of the week but will be sure to let you know if that changes.

Were you able to find a word copy of the assessment? Worst case I can pull the text from the PDF, but the word version would be preferable. If you want I can extract the adult neurotox section from the main document to keep the master clean/uncorrupted or I can work in the full version – don't really care, just let me know!

Thanks

Laura
